**NAAU Policy**  
**on application of the requirements of international standards during accreditation**

1. In order to implement requirements to conformity assessment bodies set by international standards, NAAU uses national standards of Ukraine harmonized with the appropriate standards.

2. In case of implementation on the international level of new accreditation standards and unavailability of respective harmonized national standard of Ukraine NAAU uses English version of international standards. Meanwhile NAAU makes unofficial translation of standards for using by interested parties (for instance, conformity assessment bodies, accreditation personnel) and Technical Committee of Accreditation provides recommendations on standard application. Such unofficial translations must be approved as documents of NAAU internal management system. After implementation of respective harmonized national standards such unofficial translations must be eliminated of circulation.

3. Term of validity of this Policy is not determined.

4. Revision is carried out, if necessary.
